Versatile professional transitioning into UI/UX Development, with a background in customer service, logistics, and administrative operations. My analytical foundation from Civil Engineering and technical skills from a Fullstack Bootcamp (JavaScript, React.js, Node.js) allow me to approach design with both business awareness and technical understanding. Currently deepening expertise in interaction design, usability, prototyping, CSS, and UI/UX project planning. I'm driven by creating intuitive, user-centered digital experiences and thrive in collaborative, creative environments. Apart from work, I enjoy music, board games, and thought-provoking movies, drawing inspiration from arts and design.

Skills and Tools

HTML / CSS	Javascript	Others:
Figma	React / Next.js	Primavera
Wordpress	Express.js	Autocad
